rofit more by disarmament. 'Are these things," the newspaper went on, "to be sacrificed for the for-iorn hope of dragging America, against her will, into European politics again? "It is a foreign hope, as the most casual student of American opinion can tell her. In the fullness of time the United States will be compelled to take a part in Europe which will satisfy every legitimate desire of France. America, no more than any of the rest of us, can live by herself alone. The days of isolation are past and over."

Paris, Oct. 6.—The aim of the French Government at the Washington Conference on Armaments and Far Eastern affairs is to convince the delegates of other nationalities, especially those of the American Government, that France is not unduly armed, and that her security requires the number of men now in active service.

And carefully arranged and indexed. Then, working on the assumption that the members of all the city's clubs and societies of public or semi-public character should be classed as "givers," the memberships of clubs, together with those of the great number of country requires the number of men now in active service. Marshal Foch will be prepared to lay ganization.

Marshal Foch will be prepared to lay before the conference every particular concerning the present land armaments of France. General Weygand and General Degoutte are collaborating with General Posticker, who will necembary Marshal Foch, in the preparation of documents which will be submitted to those were added the names of all automobile owners in the metropolitan city were also obtained and classified according to the make and price of the car owned.
